5/8/2020 Mayor's Message

3X DAILY DISINFECTANT CLEANING

City of Tombstone, 5/8/2020

Message from Mayor Escapule

As we start reopening for tourists, and as Mayor, last week I instructed the Public Works Department to begin spraying our Allen Street benches, including all tables and benches in the City Park, and both city restrooms with a Covid-19 disinfectant.

We are spraying three times a day, every day. Our equipment accurately mixes water with a disinfectant. The disinfectant is called Re-Juv-Nal. It is authorized by the US EPA as a registered disinfectant that may be used to combat Covid-19 on hard, non-porous surfaces. Re-Juv-Nal is a phosphate-free, pH neutral formulation designed to provide effective cleaning, deodorizing, and disinfection where housekeeping is of prime importance in controlling cross-contamination from treated surfaces.

As your Mayor, I can assure you that we will continue to follow public safety guidelines as recommended by the State of Arizona and the Center for Disease Control.

Disinfecting our public spaces, together with your continued support for social distancing, will help keep ourselves, our families, and visitors safe both today and tomorrow.

Thank you, Mayor Dustin Escapule
